Speaking

주1회 3시간 원어민 교포 수업

Current issue - based 신문 논술 영어 시사 토론
IBT 토플 리딩 구조독해 + Context based 자동암기 Voca
Impromptu Writing + 강사 실시간 첨삭
Impromptu Speech + 발음, 억양, 문법 교정
Speech 영상촬영 video와 강사 피드백 당일 발송

G2 수 3:20-6:20

G3 화 3:20-6:20 / 수 3:20-6:20

금 3:20-6:20 / 금 6:40-9:40

G4 월 3:20-6:20 / 토 10:00-1:00

G5 월 6:40-9:40 / 수 6:40-9:40

토 10:00-1:00 / 일 1:30-4:30

- Revolutionary** (Innovative, Groundbreaking, Radical)
 - Definition: Causing a big and important change in something
 - Sentence: The invention of the smartphone was a **revolutionary** moment in technology.
- Link** (Connect, Join, Associate)
 - Definition: To join two or more things together
 - Sentence: The new bridge will **link** the two cities, making travel easier.
- Efficiently** (Effectively, Productively, Competently)
 - Definition: In a way that uses time, energy, or resources well
 - Sentence: The factory works **efficiently**, producing thousands of products each day.
- Prosper** (Thrive, Succeed, Flourish)
 - Definition: To do well and become successful, especially financially
 - Sentence: The small business began to **prosper** after opening a new location downtown.
- Burdensome** (Heavy, Difficult, Troublesome)
 - Definition: Causing trouble or making something harder to handle
 - Sentence: The extra homework felt **burdensome** during the busy holiday season.
- Freight** (Cargo, Shipment, Load)
 - Definition: Goods carried from one place to another, often by truck, train, or ship
 - Sentence: The train was loaded with **freight** heading to the port for export.
- Inaccessible** (Unreachable, Distant, Impossible)
 - Definition: Not able to be reached or used
 - Sentence: The hiking trail became **inaccessible** after the heavy snowfall.

Reading Mind-map

Topic: A New Theory on Sandwiches

Paragraph 1 Structure: LST/TS/SP/CL

Best Title: Various theories surrounding the original purpose of sandwiches

Paragraph 2 Structure: T, K+SP/CC

Best Title: Origins and popularity of sandwiches

Paragraph 3 Structure: LST/TS/SP/CL

Best Title: Popular purposes of sandwiches

Paragraph 4 Structure: LST/TS/SP/CL

Best Title: The unusual purpose of sandwiches

Paragraph 5 Structure: LST/TS/SP/CL

Best Title: Why they eat sandwiches

CROWS SHOW OFF SURPRISING GEOMETRY SKILLS!

Crows are **remarkably** smart animals, with thinking skills **comparable** to those of five- to seven-year-old children. They can solve puzzles, use tools, and even remember faces. Now, researchers at the University of Tübingen in Germany have found that these **unassuming** birds can also **recognize** different geometric shapes — a skill previously seen only in humans.

For their study, Andreas Nieder and his team worked with two **tame** carrion crows living in their lab. These **clever** birds had already shown basic counting skills. To test their abilities further, the researchers designed a playful geometry **challenge**.

The birds were shown groups of six shapes on a computer screen. If they **pecked** the shape that was different from the other five, they earned a tasty treat, like a mealworm.

"Initially, we presented some very **obvious** different figures," Nieder says. "For instance, five moons and one flower."

Once the crows understood the game, the researchers made it trickier. They showed them different sets of shapes like squares and parallelograms. This time, the odd shape was not as easy to **spot**. For example, a set might have five perfect squares and one four-sided shape that looked just a little different.

To the researchers' surprise, the crows **consistently** picked the correct odd shape. Eventually, they performed the task even without a reward. The team published their findings in Science Advances on April 11, 2025. This study is the first to show that animals — other than humans — can recognize geometric shapes.

IN-CLASS SPEECH OUTLINE

Body Paragraph 1: Summary using the 5 Ws and 1 H

Topic Sentence: Write a sentence that tells the reader you are going to summarize the article using the who, what, when, where, why, and how. (e.g., "Scientists discovered that crows can recognize different geometric shapes, a skill once believed to belong only to humans.")

- Who:** They tested two tame carrion crows living in their lab.
- What:** They had to peck the shape that was different from the other five on the screen.
- When:** The findings were published on April 11, 2025.
- Where:** At the University of Tübingen in Germany.
- Why:** They think it may help with navigation, finding food, or identifying other crows by their features.
- How:** After starting with very different shapes, they later used shapes that looked much more similar, such as five squares and one slightly different four-sided shape.

Concluding Sentence: Write a sentence that wraps up the main ideas from the article and reminds the reader why they are important. (e.g., "This discovery is important because it shows that crows are much smarter than people once thought.")

WRITE A NEWS ARTICLE

We need an angle!

An angle is your specific take on the story - what element or aspect do you find most interesting, stands out the most, or will most interest your target audience? (You must consider WHO is your target audience)

↓

Your Angle:

Now for a headline!

A headline needs to be catchy as well as be clearly state the main points of the article/your angle.

Option 1

Option 2

Option 3

Some TIPS!

1. Use active voice instead of passive.
2. Be concise. The best headlines are short, sweet, and to the point.
3. Be accurate.
4. Spark curiosity.
5. Use numbers.
6. Include a reason to read.
7. Include impactful/power words.
